education

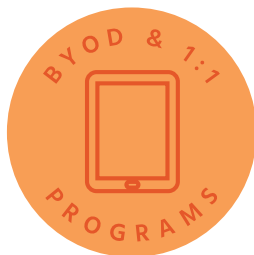

IPAU FOR EDUCATION

Ipau provides IT expertise into schools. Ipau has wide-reaching strategic partnerships designed to deliver the latest high quality, cost-effective services with the best possible IT hardware, solutions and outcomes.

We offer proven products and solutions to help schools achieve the best possible outcome for their ICT programs. Our talented team collaborate with schools to address specific site objectives delivering improved learning outcomes.

Our team of specialised experts also offer a wide-range of services to assist with the management of your ICT infrastructure. Speak to us today to design a solution that works for your school.

Ipau provides professional advice, education-specific products and strategically tailored solutions to help schools achieve the best possible outcome for their ICT programmes. We can seamlessly integrate solutions with your existing ICT infrastructure or design a new programme that can move your institution boldly and simply into education's best in class industry outcomes.

With an Education Account Manager, we provide an extensive range of education-specific products and solutions, at education specific pricing, including:

- Desktop and laptop computers
- STEAM & STEM
- Robotics
- Mobility and wireless
- Interactive collaboration
- Accessories
- 1:1 and BYOD Programmes
- Managed deployment & configuration
- Wireless and Networking infrastructure
- Professional development & training
- Procurement and Asset Management
- Managed services and help-desk support
- Esports

Our products differ from those available in retail stores, as they are exclusive to education and selected for their compatibility with school's ICT Infrastructure and curriculum.

Printed on 100% Recycled Paper
